

Wolitse Night-Breeze

Size 2
Sequential Attack
Stealthy
Wolf Leader

Wolitse Night-Breeze

45pt

Wolf Leader

As long as Wolitse is in play, all Wolf Thunder-Warriors gain the Stealthy skill.

Stealthy

A stealthy miniature may be kept in hand and deployed after all other miniatures. It is always considered to be Under Cover for shooting purposes and it may always choose to react in order to cancel any «aiming» bonus, even if this reaction does not actually bring the miniature under real cover (scenery piece and so...). More, it cannot be charged or engaged by any miniature who is more than 4" away. If the charging miniature is more than 4", the charge is failed and the miniature must move its maximum Regular Movement in the direction of its target without entering in contact with its base.
